

## The Other Side Season 6 - Cast Biographies

### Jeff Richards

Jeff's gift as an intuitive attunes him to the energy of a room immediately – whether there are living people in it or not. He brings this sense to each investigation, giving form and definition to the mysterious presences people feel around them. He shares this gift in private consultations and with the many listeners of his paranormal radio program as well. But when he's not examining the mysteries of the other side, his energy is in high demand by his four little boys.

### Tom Charles

Tom is a skilled tracker in the North, finding those who've lost their bearings in the wilderness. But he also has a gift for helping lost souls, as he brings warmth, compassion and wisdom to the quest for answers. Connecting with elders in many of the communities they visit, he honours local traditions and makes sure respect is at the heart of every investigation. To those feeling fear or unease, a kind word or bear hug from Tom Charles is a tonic to the soul.

### Erin Goodpipe

Erin Goodpipe brings a deep reverence for the journey of life and death, sharpened by her own experiences of loss. Her openness to others' journeys makes her a highly intuitive and empathetic presence on the team. She's grown accustomed to hearing the question, 'Can I tell you something I've never told anyone else?' This natural connection with people has aided her lifelong search for the truth. Erin is a multidisciplinary artist, educator, researcher and playwright, and is dakḥóta and anishinaabe from Standing Buffalo Dakota Nation.
